Public Meeting to Review East Main Street & Williamsburg Avenue Intersection Improvements and Nicholson Street Streetscape Project *~ Meeting scheduled to provide information and solicit public input ~*

RICHMOND, Va. – The Richmond community will have an opportunity to provide input for the Phase I and Phase II East Main Street & Williamsburg Avenue Intersection Improvements Project, along with the Nicholson Street Streetscape Project, at a public information meeting on Thursday, August 2 from 5 p.m. to 7 p.m. at Powhatan Community Center located at 5051 Northampton Street. Design concepts and maps will be available for review. The project team, including representatives from the City of Richmond, will be available to answer questions and listen to ideas. Public engagement is important to the success of the project.

The proposed improvements for the intersection of East Main Street and Williamsburg Avenue include:

- Increased design speed and safety
- Horizontal geometry improvements that create a continuous thru movement through the intersection
- Pedestrian and bike connectivity from Libbie Hill and Poe's Pub
- Full signal modernization with high visibility cross walks
- Pavement replacement and/or mill & overlay

Enhancements to the Nicholson Street corridor, with a streetscape design to connect with the recently completed East Riverfront project along East Main Street, include:

- Landscaping
- On-street parking
- Decorative lighting
- Sidewalk extension
- Pavement mill & overlay
