***Improving Pregnancy and Infant Outcomes:
Challenges and Opportunities***

Adolescent Health: Who’s Pulling the Strings?

Things to consider prior to the childbearing years.
How can good health habits and attitudes be influenced
in childhood and adolescence? How can school
systems and educational institutions, that have the most
contact with young people, help instill healthy patterns
for the future? What is the role of parents? What is the
role of religious and community organizations?

Panelists

Dawn Cherry, BS
T.O.D.A.Y.S. Youth Services, LLC

Gale Grant, MA, CPP
Richmond City Health District

**“THE RICHMOND REGIONAL SUMMIT
ON PREVENTING INFANT DEATHS”
SUMMIT PROGRAM
October 22-23, 2007**

The home we live in, the connections we have to other people, the neighborhood in which we live...our social and physical environment as a contributing factor to positive birth outcomes. How can communities mobilize to ensure a social and physical environment that can be helpful to optimal health? What are some local and national models or examples of successful community approaches?
